

CHEF TABLE

“Experiencing the Chef Table
is not just about sitting down for a meal.
It's a journey that brings back
those intimate moments spent in the kitchen
just like when I stood by my father Gastone,
learning the art of cooking.”

Marco Sacco

It's like reliving those precious memories of cooking
with your mother,
when every gesture, every aroma
told a story of family and love.
In the kitchen,
with its familiar scents and comforting warmth,
it wasn't just about preparing food,
it was about creating memories, laughter and emotions
that stay with you forever.
That's exactly what the Kitchen Table experience is about:
here, you're not just a guest;
you become part of something truly authentic.
You can watch the dishes come to life,
breathe in the aromas blending in the air
and listen to the sounds of a craft
that transforms ingredients into emotions
an unforgettable experience
side by side with the chefs.
